

## LCA SMART PEEL PADS

**SIZE:** 33.5ml – 30 pads in a jar & pH 3.45      **SRP:**

**WHAT?** High-strength, multi-layer, AHA resurfacing peel pad that works hard to remove only the outermost layer of dead skin cells of your complexion revealing brighter and fresher improved skin. Will allow better absorption of further skincare products allowing your products to work even 'smarter and harder'. Removes dirt, debris, dead skin cells and build-up on the surface.

**WHEN?** On cleansed skin, start with using one pad once a week, moving to a couple of times per week when acclimatized. Preferably in the evening due to daylight and sun exposure.

**HOW?** After cleansing, on dry skin. Gently wipe a pad over the entire face, neck, décolleté or area to be treated. **Do not apply over eyes or lips.** A mild tingling sensation will be experienced and is normal. Leave product on the skin and blot the skin dry - **do not remove.** Always apply corrective or hydrating product afterwards to improve the feeling of comfort.

**WHO?** All skin types. Congested skins, all age groups. Those with concerns of fine lines and wrinkles, dull, polluted, tired skins, pigmentation, breakouts and acne. Those needing to balance their complexion.

### ACTIVE INGREDIENTS

Key Features	Benefits
Lactic Acid	15.0%
Glycolic Acid	4.0%
Mandelic Acid	1.0%
<b>Total AHA =</b>	<b>20.0%</b>

**USP!** "PEEL + REVEAL" The Key To Excellent Skin Health.

Cell turnover slows down with age, your environment and condition of the skin. Removal of these dead cells improves skin health, texture and smoothness. Excellent to be also used on back of hands, back, chest, wherever needs repair and normalization.

**Ingredients:** Water (Aqua), Lactic Acid, Sodium Hydroxide, Glycolic Acid, Mandelic Acid, Phenoxyethanol, Ethylhexylglycerin.

## DNA EYE RECOVERY CREME with Retinol

**SIZE:** 15ml & pH 5.8      **SRP:**

**WHAT?** A rich, luxurious, adaptive eye cream perfect for smoothing the delicate eye contour area – a unique combination of multiple eyecare benefits in one! Smoothing and softening cream with super skin-feel texture with anti-inflammatory and anti-redness properties.

**WHEN?** To begin with, use once per day, preferably at night, to acclimatize to retinol.

**HOW?** Apply a small amount evenly around eye area. Use once or twice daily. Use with sunscreen during the daytime

**WHO?** Those wishing to use an advanced eye cream that resurfaces, retexturizes and smooths fine lines and wrinkles, improves effects of environmental damage.

### ACTIVE INGREDIENTS

Key Features	Benefits
0.3% retinol	Resurfaces, retexturizes and smooths fine lines and wrinkles.
Glycerin	Water magnet, intensively hydrates.
Soliberine/ Butterfly Bush	Antioxidant, HEV blue light, anti-wrinkle, anti-inflammatory, protects DNA.
DNA Repair Enzymes	Essential genetic skincare repair and protection. Source of enzymes: blue/green algae, mustard seed extract & a microbe, for cell repair delivered via liposomes.
Hyaluronic Acid	Holds 1,000 x its weight in water, intensely skin hydrating.
Vitamin E	Essential skin antioxidant, protects cell membrane.
Vitamin C – MAP	Key skin antioxidant, promotes collagen response and minimizes pigmentation.

**USP!** For anyone wanting specific protection and repair from the effects of HEV blue light and artificial genetic damage. Retinol will also retexturize and improve collagen response.

**Ingredients:** Water (Aqua), Octyl Palmitate, Glycerin, Dimethicone, Butylene Glycol, Glyceryl Stearate, Polyacrylamide, c13-c14 Isoparaffin, Emulsifying Wax, Buddleja Officinalis Flower Extract, Retinol (Vitamin A), Sodium Hyaluronic Acid, Micrococcus Lysate, Lecithin, Plankton extract, Magnesium Ascorbyl Phosphate, Tocopherol, Arabidopsis Thaliana Extract, Xanthan Gum, PEG-100 Stearate, Cellulose Gum, Phenoxyethanol, Laureth-7, Ethylhexylglycerin, Acrylates/c10-30 Alkyl Acrylate copolymer.

## DNA INTENSE RECOVERY CREME

**SIZE:** 50ml & pH 5.03      **SRP:**

**WHAT?** A luscious and smooth unique textured creme/balm. Miraculous repair balm for immediate soothing properties. Provides broad-range protection against the effects of environmental and UV stress, while helping to correct skin damage at cellular level. A multiple formula-in-one, non-tacky texture. DNA Intense Recovery Creme addresses your skin moisturizing and calming needs throughout the day and night.

**WHEN?** 24-hour cream, may be used day, night or both – you decide. Perfectly adaptable.

**HOW?** Apply 1-2 pumps of this airless pump jar to face, neck and décolleté. Massage into the skin.

**WHO?** All skins but especially those needing more correction and repair. Delicate, sun-damaged, over-treated skin. All genders, and anyone wanting to 'nurture', calm and moisturize their skin.

### ACTIVE INGREDIENTS

Key Features	Benefits
