TREATMENT RECOMMENDATIONS

✦ CLEANSE

≡ HYDRATE

⦿ REPAIR

💧 MOISTURISE

🛡️ PROTECT

STAGE 1 AGEING CHARACTERISTICS:

When you notice fine lines around the eyes and mouth, only visible with facial movement. Otherwise, your skin has good elasticity and plumpness.

TREATMENT: POWER PEPTIDE RESURFACER

Enjoy the immediate benefits of this deeply hydrating treatment that will leave your skin firm, lifted and glowing.

STAGE 2 AGEING CHARACTERISTICS:

Are those fine lines around the eyes, mouth and other areas of facial expression becoming more visible and slightly deeper?

TREATMENT: GYCOLIC ACID RESURFACER

It's time to revitalise your skin with this intensive anti-ageing treatment that guarantees smooth and reenergised skin.

STAGE 3 AGEING CHARACTERISTICS:

Fully developed fine lines that are evident across all the common tell-tale areas of ageing skin such as eyes, mouth, nose and forehead.

TREATMENT: TCA/SALICYLIC ACID PEEL

An advanced chemical peel perfect to combat this stage of skin ageing. Treatment will improve your skin texture and tone.

STAGE 4 AGEING CHARACTERISTICS:

Developed wrinkles around the face and neck with a loss of firmness and elasticity specifically around the jaw and jowls.

TREATMENT: BESMOOTH PEEL

Opt for the ultimate anti-ageing chemical peel treatment designed to improve ageing skin and unveil a more youthful complexion.

Please refer to your skin therapist where an in-depth consultation will be carried out to devise a program of treatments to achieve your skin goals
