

DERMAQUEST

Summer Papaya Facial Protocol

Level 2

Fitzpatrick Type: All

Treatment Time: 1 hour

An invigorating facial treatment that uses a lactic acid to revitalise and hydrate a dull, lethargic skin. The skin will be infused with water to plump and firm leaving a brightening glow to the complexion.

Who is this for? An invigorating, brightening and hydrating treatment appropriate for those concerned with preventative ageing or dull, lethargic skin.

Benefits:

- Improves tone and texture of the skin
- Brightens and reduces pigmentation
- Effectively exfoliates and hydrates

Protocol:

 **1. Cleanse:** *Essential Daily Cleanser*
(Emulsify a 10p sized amount with water. Work into skin and thoroughly rinse off)

2. Exfoliating Mask: *Firming Enzyme Treatment Set*
(Vigorously mix ½ teaspoon of Firming Enzyme Treatment powder with 1 ½ teaspoons of the Activator. Leave on for 5 minutes. Remove thoroughly with tepid water)

3. Exfoliate: *Lactic Acid Resurfacer*

(Apply a 10p size amount in an even, thin layer with a 2x2 size soft gauze and leave on for 5 minutes maximum)

4. Mask: *Summer Papaya Mask*
(Using a 10p-sized amount saturate a fan brush with solution. Apply in a thin, even layer over face. Gently massage in for 2 minutes. Remove with warm towel.)

5. Finish: *Layer one pump each of:*

 **Hydrate:** Essential B5 Hydrating Serum

 **Repair:** Stem Cell Rebuilding Complex

 **Repair:** Delicate Soothing Serum

 **Moisturise:** Essential Moisturiser

 **Protect:** SheerZinc SPF30

6. Enhance: *LED (optional)*
(Apply LED according to manufacturer's instruction)
